PROFESSIONAL SUMMARY

Results-driven Software Developer with experience in backend and full-stack development, specializing in Laravel, Spring Boot, and Angular. Proven track record of upgrading legacy systems, implementing modern architectures, and deploying scalable applications. Skilled in API integration, CI/CD, and system optimization.

TECHNICAL SKILLS

Languages: PHP, Java, JavaScript, Python

Frameworks: Laravel, Filament, Spring Boot, Angular

Databases: MySQL

Tools: Git, Docker, Composer, Linux (Ubuntu), CI/CD Pipelines

Other: API Integration, System Upgrades, Debugging, Deployment

PROFESSIONAL EXPERIENCE

Assistant Software Developer | Strathmore I.C.T Department | Aug 2023 – Present

- Upgraded legacy eClaims system from Java 8 to Java 21 and Spring Boot 1.5 to 3.2, improving performance and maintainability.
- Migrated frontend from Angular 4 to Angular 16, enhancing user experience and application scalability.
- Developed and integrated PayPal payment functionality into the Certificate Verification System.
- Designed and built a dynamic eForms system with configurable form creation, workflows, and routing destinations.
- Provided IT support and troubleshooting for the eClaims system, ensuring system reliability and minimal downtime.
- Implemented and managed CI/CD pipelines for automated testing and deployment on test servers.

Software Developer Intern | Strathmore I.C.T Department | Feb 2023 – Jul 2023

- Designed and developed internal systems including Partnership Management System.
- Built Industry Mentoring and Career Development systems using Laravel and Filament.
- Integrated APIs and implemented response validation mechanisms.
- Deployed and maintained applications in test environments.
- Debugged backend issues and improved system performance.
- Collaborated with teams to translate requirements into solutions.

Software Developer Intern | Strathmore Business School | Jan 2019 – Mar 2019

- Assisted in development and maintenance of application modules.
- Supported debugging, testing, and documentation.
- Contributed to UI/UX and system improvements.

Volunteer | Nairobi Tech Week, Strathmore University | Mar 2017

- Supported setup of technical equipment during events and hackathons.
- Assisted guests and speakers, escalating issues when necessary.
